

Photo-Shooting at the Museum

The museum is also used for photographic purposes.

Make an appointment with me for a photo-shoot for you, your family, children or friends with the Steiff animals.

Last updated August 2024

Private museum
with life-sized Steiff animals

s' Ohrfähnsche

s' Ohrfänsche

is a private museum with life-sized Steiff animals. From mice to elephants, everything is presented in natural habitats (forest, jungle, steppe, savannah, desert, America, Antarctica, mountains and farm).

Experience the diversity and beauty of Steiff animals on a guided tour with me through:

- a collection of Steiff animals collected worldwide over a 30 year period
- over 700 items
- exhibits dating from 1959 until today
- on a display area of 250 m² spread over two levels

The museum is full of surprises.
Be excited.

History of the museum

2012 – 2014

Barn conversion

2014

Arrival of a large number of Steiff animals

2015 – 2016

Start of the interior work „the savannah“

2016 – 2020

Further scene construction of „steppe, jungle and forest“

2020 – 2022

Starting with the natural habitat of a „farm“ and the desert

2022 – 2024

Further scene construction of mountains, Antarctica and America

2024

Arrival of the last Steiff animal for the time being, a bison

Inspiration from the museum
